

Water Service Line Notice

Dear Blanchester Residents:

- RCAP is working alongside the Village of Blanchester utilities team to complete a service line inventory in accordance with the EPA mapping mandate.
- RCAP Staff will be visiting the village the week of **April 1st through April 4th** to complete work for this inventory.
- During this visit RCAP will be conducting home visits to verify service line material entering the home
- RCAP will also be deploying a soft digging method to visually inspect a portion of the service line at the curb stop
- RCAP staff will be wearing High Vis apparel with the RCAP logo and have identification with them.
- If a lead service line is found, the homeowner will be notified of its presence and can discuss a plan to remove the lead with the village
- A lead service line will not pose an immediate health risk to you or your family.
- Thank you for your cooperation with RCAP and the village to help complete the lead service line inventory. Your help is greatly appreciated
